For purposes of making this determination, the term unusable means that the parking space is not large enough to contain a compact-sized automobile or that the driveway to the parking space is so steep, narrow or otherwise configured that it precludes safe passage of the vehicle, and that enlargement to permit safe passage would result in severe economic hardship.

No garage or other off-street parking may be altered for a use other than parking, unless otherwise allowed under this chapter.

Density bonus means a density increase over the otherwise maximum allowable residential density for a housing development as of the date the application is deemed complete, as prescribed by State Density Bonus Law, or, if elected by the applicant, a lesser percentage of density increase, including, but not limited to, no increase in density.

For purposes of this definition, residential density shall be calculated based upon the gross acreage of a housing development. Waiver means a waiver or a reduction as the terms are used in California Government Code Section 65915 and in particular in Section 65915(e) thereof, and means any and all changes to or exemptions from physical lot development standards that are required to avoid precluding the construction of a housing development with density bonus units, as set forth in Section 65915(e), as may be amended. 6. An identification of any concession(s) sought and reasonable documentation consisting of a detailed written statement to establish eligibility for the concession(s);
7. An identification of any waiver(s) sought and a detailed written explanation of why the development standard from which any waiver is sought would have the effect of physically precluding the construction of the housing development at the density and with any concession(s) or parking ratio reduction sought;
8. If the housing development is proposed on any property that includes a parcel or parcels with existing dwelling units or dwelling units that have been vacated or demolished in the five-year period preceding the application, an explanation of how the project meets State Density Bonus Law's replacement housing requirements, if applicable, set forth in Government Code section 65915 subdivision (c)(3), as may be amended;
9. If the density bonus is requested for a land donation, the location of the land to be dedicated, proof of site control and reasonable documentation that each of the requirements pursuant to State Density Bonus Law, set forth in Government Code section 65915 subdivision (g), as may be amended, can be met;
10. If the density bonus or concession requested is based all or in part on the inclusion of a child-care facility, a written summary addressing the eligibility requirements pursuant to State Density Bonus Law, as set forth in Government Code section 65915 subdivision (h), as may be amended, have been met; and

11. If the density bonus or concession is based all or in part on the inclusion of affordable units as part of a condominium conversion, written summary addressing the eligibility requirements pursuant to State Density Bonus Law, set forth in Government Code section 65915.5, as may be amended, have been met.

B. Building permit. A building permit shall be required for construction or modification of a residential unit as set forth in the California Residential Code and other building standards adopted by the City.

C. At the time the application is deemed complete, the Director shall provide the applicant with a determination regarding the amount of density bonus and the parking ratio for which the housing development is eligible and whether adequate information has been submitted for the Director to make a determination or recommendation, as applicable, regarding any requested concessions and waivers.

D. The application for a density bonus shall be accompanied by an application fee in the amount established by City Council resolution.

E. The Director shall provide the applicant notice of financial assistance that may be available upon determining that the application is complete.

F. If the proposed housing development would be inconsistent with State Density Bonus Law, then the planning director shall provide the applicant notice describing the inconsistency(ies) pursuant to the Housing Accountability Act, Government Code section 65589.5.

G. Project Findings. All requests for density bonuses, concessions, parking ratios, or waivers shall be considered and acted upon by the approval body with authority to approve the housing development within the timelines prescribed by Government Code Sections 65950 et seq. The approval body shall grant the request(s) pursuant to state Density Bonus Law if the following findings are met:

- i. The project is a housing development that qualifies for a density bonus and meets all applicable eligibility requirements;

- ii. The housing development has provided sufficient affordable units or otherwise meets all eligibility requirements;
- iii. If a reduced parking ratio is requested, the housing development meets all eligibility requirements, unless the City makes certain findings pursuant to State Density Bonus Law, as set forth in Government Code section 65915 subdivision (p)(8), as may be amended;
- iv. If concessions are requested, the housing development meets all eligibility requirements, unless the City makes certain findings pursuant to State Density Bonus Law, as currently defined in Government Code section 65915 subdivision (d)(1), as may be amended; and
- v. If waivers are requested, the development standards requested to be waived would physically preclude construction of the housing development at the density and with any concession(s) or parking ratio reduction sought, unless the City makes certain findings pursuant to State Density Bonus Law, as set forth in Government Code section 65915 subdivision (e)(1), as may be amended.

17.52.080 Affordability Requirements

A. Affordable rental units provided by a housing development to meet State Density Bonus Law requirements shall be subject to an affordable housing agreement recorded against the housing development with a fifty-five (55) year term commencing upon the issuance of certificates of occupancy. The form of the affordable housing agreement shall be approved by the City Attorney.

B. For-sale affordable units provided by a housing development to meet State Density Bonus Law requirements shall be subject to a recorded affordable housing agreement with a minimum 45-year term commencing upon the issuance of certificates of occupancy in a form approved as to form by the City Attorney . 17.54.030 Definitions

In this division:

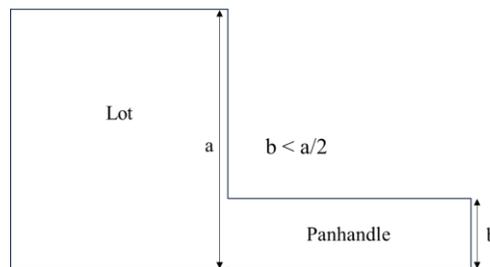

Accessory dwelling unit or “ADU” shall have the same meaning as specified in Section 17.38.020 of the Piedmont City Code.

Existing dwelling unit means a primary dwelling unit or other dwelling unit on a parcel that exists prior to any voluntary demolition or reconstruction or remodel where more than 50 percent of the exterior wall framing has been removed or altered. Any existing dwelling unit where more than 50 percent of the exterior wall framing has been removed is considered a new dwelling for purposes of this division.

Flag lot means a parcel that has less than the minimum required frontage on a public road and has access to the public right-of-way by a narrow strip of land, with the largest portion of the lot being situated behind adjoining lots which front a public right-of-way.

Junior accessory dwelling unit or “JADU” shall have the same meaning as specified in Section 17.38.020 of the Piedmont City Code.

Panhandle lot is a lot containing a narrow strip of land that is connected on its shorter side (b) to the larger portion of the lot where the narrow strip does not provide access to the public right-of-way, and the length of the shorter side (b) of the narrow strip of land is less than 50 percent of the parallel width (a) of the larger portion of the lot.

Primary dwelling unit means a single-family residence or a residential unit within a multi-family residential development. A primary unit is distinct from an ADU or a JADU. Examples of primary units include a single-family residence (i.e., one primary unit) and a duplex (i.e., two primary units).

SB 9 dwelling unit or *SB 9 unit* means a dwelling unit that is developed using the provisions in this division and the provisions identified in California Government Code Section 65852.21.

Two-unit housing development means a development containing no more than two primary dwelling units. A two-unit housing development may include two new units or one new unit added to an existing unit.

Unusual shape means (1) a parcel with more than 6 sides; (2) a parcel created by a lot split that necessitates more than three property line segments; (3) a panhandle lot; or (4) a parcel where an interior angle is less than 50 degrees unless the curvature of an existing street or lot line precludes the possibility of a corner that meets the angle requirement.

Urban lot split means the subdivision of a parcel within a residential single-family zone into no more than two parcels pursuant to the authority set forth in Government Code section 66411.7.

17.54.040 Permit application and review procedures

A. Application.

1. Application. An owner is required to submit an application for an urban lot split permit and a two-unit housing development permit. An application for an urban lot split may be submitted concurrently with an application for a two-unit housing development. A complete application will be reviewed for conformance with this division and the applicable standards by the Planning & Building Director.

2. Application fee. The owner shall pay an application fee in the amount established by City Council resolution.

3. Affidavit. Upon the submittal of an urban lot split application, the property owner must sign an affidavit stating that the applicant intends to occupy one of the housing units as their principal residence for a minimum period of three years from the date of the lot split. If there is no residence existing on either lot, the applicant shall sign the affidavit stating that they will intend to live in one of the new units for a minimum of three years.

B. Ministerial Review. The Director shall review each application ministerially to determine if the development standards in section 17.54.050 are met for an urban lot split or the development standards in section 17.54.060 are met for a two-unit housing development. The Director will review the application without notice or public hearing, and shall approve the application if the application meets the applicable requirements of the division.

C. Subdivision Map Act. An application for an urban lot split permit must adhere to the objective requirements outlined in the Subdivision Map Act (Division 2 (commencing with Section 66410)), except as otherwise expressly provided in this section. A tentative map shall be submitted to the City Engineer for a lot split application.

D. Inconsistencies. If the proposed urban lot split or two-unit housing development is inconsistent with applicable requirements, the planning director shall provide the applicant notice describing the inconsistency(ies) in the same manner prescribed by Government Code section 65589.5(j)(2).

E. Decision and conditions. The Director shall render a decision in writing and shall state the reasons for approval or denial. The decision of the Director shall be final. The City may deny an urban lot split permit or a two-unit housing development permit if the Director makes a written

finding, based upon a preponderance of the evidence, that the proposed housing development project would have a specific, adverse impact, as defined and determined in paragraph (2) of subdivision (d) of Section 65589.5, upon public health and safety or the physical environment and for which there is no feasible method to satisfactorily mitigate or avoid the specific, adverse impact.

17.54.050 Urban Lot Split Standards

The Director may not approve an application for an urban lot split permit unless the project conforms to all of the standards listed below. A waiver may be granted for an exception to the standards as described under section 17.54.080.

A. Size Requirements

1. The parcel subdivides an existing parcel to create no more than two new parcels of approximately equal lot area provided that one parcel shall not be smaller than 40 percent of the lot area of the original parcel proposed for subdivision.
2. The newly created parcels are no smaller than 1,200 square feet.

B. Location Requirements

1. The parcel is not located in an area identified in subparagraphs (B) to (K) of paragraph (6) of subdivision (a) of Section 65913.4 of the Government Code.
 - a. The parcel is not located within a very high fire hazard severity zone, as determined by the Department of Forestry and Fire Protection pursuant to Section 51178, or within a high or very high fire hazard severity zone as indicated on maps adopted by the Department of Forestry and Fire Protection pursuant to Section 4202 of the Public Resources Code. This subparagraph does not apply to sites excluded from the specified hazard zones by a local agency, pursuant to subdivision (b) of Section 51179, or sites that have adopted fire hazard mitigation measures pursuant to existing building standards or state fire mitigation measures applicable to the development.
 - b. The parcel is not located on a hazardous waste site, as defined by Government Code Section 65913.4(a)(6)(H).
 - c. The parcel is not located within a special flood hazard area subject to inundation by the one percent annual chance flood (one hundred (100)- year flood) as defined by Government Code Section 65913.4(a)(6)(G).
 - d. The property is not located within a regulatory floodway, as defined by Government Code Section 65913.4(a)(6)(H).
2. The proposed urban lot split would not require demolition or alteration of the housing types listed in Government Code section 66411.7(a)(3)(D)(i)-(iv). following types of housing:
 - a. Housing that is subject to a recorded covenant, ordinance, or law that restricts rents to levels affordable to persons and families of moderate, low, or very low income.
 - b. Housing that is subject to any form of rent or price control through a public entity's valid exercise of its police power.
 - c. A parcel or parcels on which an owner of residential real property has exercised the owner's rights under Chapter 12.75 of the California Government Code

(commencing with Section 7060) of Division 7 of Title 1 to withdraw accommodations from rent or lease within 15 years before the date that the development proponent submits an application.

- d. Housing that has been occupied by a tenant in the last three years.
3. The parcel is not located within a historic district or property included on the State Historic Resources Inventory, as defined in Section 5020.1 of the Public Resources Code, or within a site that is designated or listed as a city or county landmark or historic property or district pursuant to a city or county ordinance.
4. The parcel has not been established through prior exercise of an urban lot split as provided for in this division.
5. Neither the owner of the parcel being subdivided nor any person acting in concert with the owner has previously subdivided an adjacent parcel using an urban lot split as provided for in this division.

C. Lot Configuration

1. Access to Public Right-of-Way. The new parcel shall have vehicular access to the public right-of-way, either through direct lot frontage or an easement through the existing parcel.
2. Existing Dwelling Unit. If an urban lot split is proposed for a property with an existing dwelling unit, the split must result in the existing dwelling unit being completely located on one parcel.
3. Lot Frontage. The lot shall have a minimum frontage of 60 feet, unless the frontage requirement precludes the development of two lots containing an 800 square foot primary structure. A new lot may be accessed via an easement across a pre-existing lot that contains street frontage.
4. Flag Lots. Flag lots are not permitted under an urban lot split permit. If a new parcel is created without direct access to the public right-of-way, an easement shall be provided through the original lot. The easement shall meet the following requirements:
 - a. The easement shall have a minimum width of 12 feet.
 - b. The easement shall provide access for utilities to be connected to the public right-of-way.

- A. Size.
 - a. The SB 9 unit is no more than 800 square feet in size.
 - b. For an SB 9 unit that exceeds the 800 square foot size limit, the SB 9 unit shall meet the floor area ratio criteria for the underlying zoning district, unless the development falls under section E below.

- C. Setbacks.
 - a. The side and rear setback is four feet for an SB 9 unit in any zone.
 - b. The street-side setback, including for corner lots, is 20 feet.
 - c. For the development of a new SB 9 unit within an existing structure that does not meet the four-foot setback requirement, the new unit is allowed to keep the nonconforming condition so long as the nonconformity is not increased within the setback area. The converted structure must be in the same footprint and dimensions as the existing non-conforming structure.
- D. Parking. New SB 9 units are required to have at least one parking space that meets the size requirements in Section 17.30 of the Piedmont City Code. If the parcel is located within one-half mile walking distance of either a high-quality transit corridor as defined in subdivision (b) of Section 21155 of the Public Resources Code, or a major transit stop as defined in Section 21064.3 of the Public Resources Code, then parking is not required for the new SB 9 unit.
- E. Lot Coverage.
 - a. When a two-unit housing development is proposed on a new lot created pursuant to the urban lot split provisions specified in this division, the new SB 9 unit(s) shall conform to the structure coverage, landscape coverage, and floor area ratio of the underlying zoning district.
 - b. When a new SB 9 unit is constructed on a lot with an existing dwelling unit, the floor area ratio may exceed the code required maximums so long as structure and landscape coverage conform to the requirements of the underlying zoning district.
- F. Path of Travel. The path of travel to the new SB 9 unit shall be clearly marked by providing an address marker visible from the street and at the main entry door to the new unit. If needed, path lights shall also be installed. The path of travel shall have a minimum width of 3 feet.

17.54.070 Accessory Dwelling Units

1. Application. The applicant requests an exception as a part of the application materials.
2. Approval Authority. The exception request shall be submitted to the Director for review. The Director shall determine if the exception meets the standards for approval.
3. Standards for Approval. An exception from a development standard shall be granted if the standard would have the effect of physically precluding:
 - (1) an urban lot split where the minimum lot size is at least 1,200 square feet for both parcels; or
 - (2) the construction of up to two units, or precluding either of the two units from being at least 800 square feet in floor area.

A waiver cannot be approved for an application that proposes new construction within the four-foot side and rear setbacks.”

Attachment C

Likewise, if a 50-unit apartment building is on a 0.5-acre lot, the density would be 100 du/ac. The physical size of the lot determines how many dwellings can fit on a site; a 0.5-acre lot with a density maximum of 20 du/acre would only be permitted for up to 10 dwelling units. Du/ac does not dictate unit size or unit type.

Fence includes a railing, free-standing wall, or a decorative element such as lattice, trellis, and covered gate, or any combination of these features. Neither the trellis or any part of the fence may be wider than 24 inches in the smallest plan dimension. A *fence* may be free-standing or self-supporting.

If measurement "E" is less than 24 inches, the fence and retaining walls are measured together (e.g., $A+B=Height$).

If measurement "E" is greater than 24 inches, the fence and retaining walls are measured independently. (e.g., measurement C would be independent of $A+B$)

If measurement "D" is ≤ 24 " the improvement is considered a fence.

If measurement "D" is > 24 " the improvement is considered a site feature.

The measurement and terracing of fences and retaining walls. See section 17.30.010.

Floor area of a building means the sum of the gross horizontal area of the floors of the building, measured from the exterior faces of exterior walls or from the center line of party walls separating two buildings, and includes, but is not limited to:

1. living space on all levels, including within a basement or attic;
2. elevator shafts and stairwells at each floor;
3. bay window or window seat that projects beyond the exterior wall in which a person can reasonably stand or sit, even if the window or seat does not have a minimum ceiling height of seven feet, six inches;
4. seventy square feet or more of contiguous non-habitable attic area that has permanent access, a minimum ceiling height of five feet, and an average ceiling height of at least seven feet six inches. *Permanent access* includes built-in stairs (even if they do not meet all of the building code requirements), but does not include built-in or pull-down ladders;
5. seventy square feet or more of contiguous non-habitable basement area that has a minimum ceiling height of seven feet and at least 42 inches of the basement level, measured from the basement ceiling, is above grade at the exterior wall;
6. enclosed porch or lanai, heated or not;

Attachment C

7. high-volume space that exceeds an average height of 15 feet, measured from finished floor to the outer roof, is counted as two stories; and
8. area within a building used for commercial purposes.

Unless listed above, living space not considered habitable under the Building Code because of window size, ventilation, access, ceiling height, heating, or electrical service (e.g. unconditioned storage area) is not counted in the floor area, but if the space is actually used for living, sleeping, eating, bathing, washing, or cooking, the space will be included, subject to the interpretation of the Director.

Floor height is measured from the floor level of a story to the floor level of the story directly above or roof surface directly above. See also *Story*.

Footprint means the total land area covered by all accessory and primary structures on a lot, measured from outside the exterior walls and supporting columns or posts, except that the following are not included in determining footprint:

1. The portions of any uncovered and unenclosed decks, porches, landings, or patios, not including railings, which are less than 30 inches above finished grade and which project no more than 36 inches from the footprint;
2. Uncovered and unenclosed stairways, including railings, which are less than six feet above finished grade and which project no more than 36 inches from the footprint;
3. Eave or roof overhang that projects up to three feet from the exterior wall surface or supporting column or post;
4. Trellis, awning or similar feature that projects horizontally up to three feet from the exterior wall surface or supporting column or post.

Frontage means the length of a lot line of a lot contiguous with a portion of a public or private street, whether or not the entrance to any structure on that lot faces the street. Frontage may occur along a front, side, or rear lot line.

Grade.

Average grade means the average level of land on the surface defined as the shortest distance between finished grade at the highest and lowest sides of a structure.

Existing grade means the level of the ground or pavement as it exists before it is disturbed in preparation for a project.

Hardscape includes: a structure; paving material (concrete, asphalt, brick, stone, gravel, wood, stepping stone or other similar walkway); swimming pool; or patio, deck, balcony, or terrace. *Hardscape* does not include building eaves or landscaping. Nor does it include retaining walls, fences, furniture, statuary, or other individual built features used in conjunction with landscaping which individually do not cover more than ten square feet and cumulatively do not cover more than 100 square feet.

Attachment C

Net lot area means the area of a lot, excluding publicly dedicated land and private streets that meet local standards, and other public use areas.

Setback means the required distance that a building, structure or other designated item must be located from a lot line. Setbacks are measured from the lot line to the footprint of the structure or building.

Story means a portion of a building included between the upper surface of a floor and the upper surface of the floor or roof above. See also *Floor height*.”
